THE MOST INNOVATIVE STRINGS EVER...

The preeminent worldwide provider of musical instrument string parts for many years and a leading producer of specialized musical instrument strings sold throughout Europe, The United states, and Asian countries. Olympia has grown as the biggest manufacturer of all kinds of musical instrument strings items and we have been dominating higher market share in Korea than competitor of the same lines since Olympia was established in 1984. Experience from over twenty five years of advanced string instrument technologies combined with ISO 9001 quality control has given Olympia the leading edge in producing the highest quality and most innovative strings in today's market place.

Nowadays, Olympia has a good reputation for delivering top quality instrument strings at highly competitive prices to our satisfied customers.

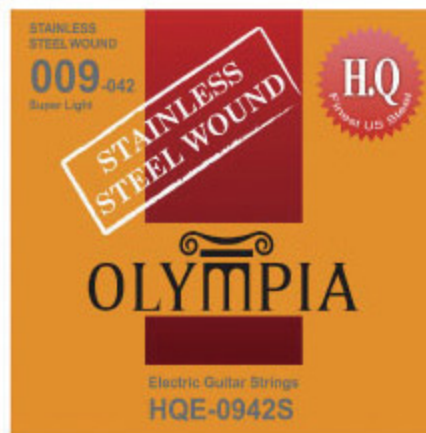

As a world leader in musical instrument string production, Olympia's pledge the following to our customers.

- To provide string of the highest quality for all levels of the economic market place
- To continue to improve our product's ability to meet our customer's needs
- To invest in research and innovation that leads to the next generation of high quality sound
- To provide reliable and courteous service with prompt delivery
- To meet or exceed our customer's needs before, during and after every purchase

HQ STAINLESS STEEL WOUND STRINGS with US Finest Wire

HQE0942S STAINLESS STEEL WOUND

E-1st	.009	Plain Steel
B-2nd	.011	Plain Steel
G-3rd	.016	Plain Steel
D-4th	.024	Stainless Steel Wound
A-5th	.032	Stainless Steel Wound
E-6th	.042	Stainless Steel Wound

Olympia HQ Stainless Steel Electric Guitar Strings are very popular for their brilliant tone, sustain, and great volume. Anti-corrosive and high magnetic, they provide exceptional properties for electric guitars.

HQB45100S STAINLESS STEEL WOUND

G-1st	.045	Stainless Steel Wound
D-2nd	.065	Stainless Steel Wound
A-3rd	.080	Stainless Steel Wound
E-4th	.100	Stainless Steel Wound

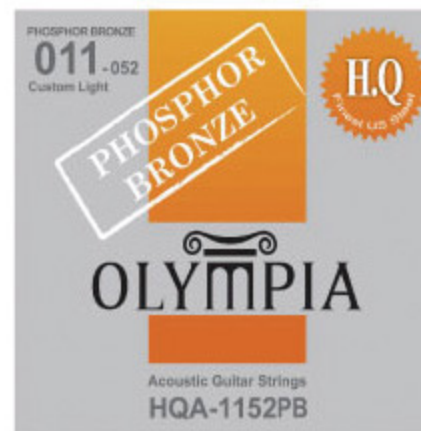

Olympia HQ Stainless Steel Electric Bass Strings are manufactured in a highly magnetic alloy which ensure the best pickup amplification. Being brighter stainless steel strings are recommended for modern rock and metal and slap on the bass which nickel wound strings are recommended for those who are looking for a more vintage "hot" tone.

HQ ACOUSTIC GUITAR STRINGS with US Finest Wire

HQA1253PB PHOSPHOR BRONZE

E-1st	.012	Plain Steel
B-2nd	.016	Plain Steel
G-3rd	.024	Phosphor bronze
D-4th	.032	Phosphor bronze
A-5th	.042	Phosphor bronze

D-4th	.032	Phosphor bronze
A-5th	.042	Phosphor bronze
E-6th	.052	Phosphor bronze

HQ Acoustic Phosphor Bronze Strings are any alloy of copper 90% and 10% zinc and last longer than conventional bronze alloy strings. Also the small percentage of phosphorous in the alloy helps them to retain their sound longer. The strings vibrate more consistently and custom designed for perfect balance and tension.

HQ ROUND CORE STRINGS

with US Finest Wire

HQA1253RC ROUND CORE

E-1st	.012	Plain Steel
B-2nd	.016	Plain Steel
G-3rd	.024	Phosphor bronze

G-1st	.045	Nickel Wound
D-2nd	.065	Nickel Wound
A-3rd	.080	Nickel Wound
E-4th	.100	Nickel Wound

Olympia HQ Round Core Guitar Strings have significantly longer sustain than hex-core as windings vibrate evenly across the entire surface of the strings

This allows the tension of the windings to be distributed all the way around the strings and produce a warm tone without as much as edge as hex-core strings
